Subject: PERU: OEWGA Inputs on "Autonomy and Independence" and "Long Term and Palliative Care"

Dear Rosemary,

As requested by the Permanent Mission of Argentina to the United Nations, as Chair of the Open-ended Working Group on Ageing, please find attached some inputs provided by the Ministry of Women and Vulnerable Populations of Peru about the cluster issues "Autonomy and Independence" and "Long Term and Palliative Care".

Regarding the request of inputs in the form of normative content for the development of a possible international standard on the protection of the rights of older people to equality and non-discrimination and the right to live free from violence, neglect and abuse, the Ministry of Women and Vulnerable Populations of Peru has informed that such document should be based on the provisions of the Articles 5 and 9 of the Inter-American Convention on the Protection of the Human Rights of Older Persons, whose text can be found in the following link:

Best regards,

Ronnie Habich
Counsellor
